

## 2020 Gila & Aldo Leopold Wilderness

### Trails Not Recommended

*Note: Trail may be partially or completely impassable or obliterated. Read trail description to understand more specific conditions and the affected section of the trail.*

*Due to tree fall, floods, or other environmental conditions, the trails may become impassable at any moment.*

**Travel at your own risk.** *To learn about more current trail conditions and water sources, call your local Forest Service office. In areas of recent fires, the grass and weeds grow very fast. Despite recent maintenance, dense vegetation and fallen burnt logs are likely on the trail.*
